

Concerned about your carbon footprint?

4 Reasons to try Elimination Communication (EC) with your baby

1. Every day in London 1.5 million nappies are thrown away to landfill waste
2. On Average 12% of *every* household waste is nappies
3. Each disposable nappy takes between 200-500 years to decompose.
4. Before a child is potty trained, it will use anywhere from 4,000-6,000 nappies. Equivalent of 1 tonne of waste sent to landfill.
